Lab visit reports

Instructions:

After the lab visits, you should write a report
(min ½ page per visit and maximum 1 page per visit)

All the 4 lab visits should be assembled in **a single pdf document** with your name and the title of each visit.

The report should describe what you have seen during each lab visit and should also describe the area of research.

In order to help you, specific questions will be posted on the course homepage after the last visit on 26/09.

The answer to the questions should be included in your report.

The reports should be sent to Christelle by email (christelle.prinz@ftf.lth.se) by October 11th.
